PropatiHub

Nigeria’s Trusted Property Platform

Investor Pitch Deck | 2026

propatihub.com

The Problem

Nigeria’s real estate market is plagued by fraud, opacity, and broken trust.

Unverified Listings

Over 60% of online property listings contain inaccurate information or are outright scams, wasting time and money for seekers.

No Deposit Protection

Tenants lose billions in caution fees annually with no recourse—landlords can withhold funds without accountability.

Legal Gaps

Most tenancies operate without proper contracts. When disputes arise, there’s no structured resolution mechanism.

Fragmented Market

Property data is scattered across WhatsApp groups, classifieds, and word-of-mouth with no centralized, trusted source.

Our Solution

PropatiHub is an end-to-end property platform built to restore trust in Nigerian real estate.

Verified Listings

KYC-verified agents and properties across all 36 states + FCT

Escrow Protection

Caution fees held in escrow until move-in, with auto-release rules

AI Legal Contracts

Instant tenancy agreements generated and shared digitally

Dispute Resolution

Structured dispute filing with admin mediation and evidence tracking

Direct Messaging

Secure, PII-filtered chat between tenants, landlords, and agents

Property Data API

Market data access for developers and institutions by state/LGA

Market Opportunity

TAM

$56B
